New thinking the evolution of human cognition

The evolution of human cognition has not merely involved the addition of processes that supervise and control more primitive ways of thinking; it has accelerated an ancient trend towards increasingly powerful and coordinated embodied modes of thought.

Professor Judith Adler Hellman Department of Social

In this effort, we will also trace the evolution of thinking about fieldwork and how fieldwork can contribute to the formulation of better, more realistic, more effective development projects. To do this we will examine the writings of the most candid practitioners who have engaged in critical reflection about basic epistemological questions: that is, how we know what we know about the

Introduction to Human Evolution The Smithsonian

Human evolution. Human evolution is the lengthy process of change by which people originated from apelike ancestors. Scientific evidence shows that the physical and behavioral traits shared by all people originated from apelike ancestors and evolved over a period of approximately six million years.
